

Solaris, 2021

75cl / 12% Vol

R

This Solaris wine is full of tropical fruit flavours and crisp green apple acidity. This dry white wine offers a refreshing palate that won't disappoint. Here's to Solaris, the sun & sipping with friends!

Country: England

Region: 50% Shropshire 50% Bedfordshire

Grape: Solaris

Style: Dry white

pH: 3.15

Ta: 7.8 g/l

Residual Sugar: 2.5 g/l

Alcohol: 12%

Bottle size: 75cl

Vintage report

On the whole, the summer of 2021 wasn't quite what we were hoping for! The grapes ripened well into the Autumn thanks to a cloudier than normal August, however this has led to a really pure expression of this variety, not overpowered but with subtle floral hints and that characterful green apple acidity.

Fermented in stainless steel vats, this is a crisp and refreshing wine, perfect for summer drinking.

Solaris, 2022

75cl / 13.5% Vol

R

Solaris is the main variety planted on our 5 acre vineyard in Shropshire. Our sandy site lies over the local Cardeston rock, which gives us our unique terroir and helps emphasise our fruit driven style.

This lively cool climate white has fresh varietal fruit flavours of peach and pineapple, finished off with a crisp green apple acidity. Let this Solaris wine transport you into a tropical haven!

Country: England

Region: 100% Rowton

Grape: Solaris

Style: Dry white

pH: 3.08

Ta: 8.33g/l

Residual Sugar: 4.5 g/l

Alcohol: 13.5%

Bottle size: 75cl

Judges comments from the 2023 IEWA awards; bronze medal

"Juicy, engaging citrus and spearmint nose, with nice banana notes on the palate, and a touch of salinity"

Vintage report

2022 saw us craft our very first harvest from our vineyard. The weather was superb all year, with no frost damage in the late Spring, followed by good flowering weather and one of the hottest summers on record to ripen it all.

Resulting in this lean but very characterful wine, full of engaging citrus and tropical notes & the classic green apple acidity.
